

How to link hearing care and vision care?

Identify the patients (clients)

Areas	Corresponding ICF categories	ICF codes
Physical health	Seeing functions	b210
	Sensation of pain	b280
	Mobility of joint functions	b710
	Sensations related to muscle and movement functions	b780
	Health professionals	e355
	Health services, systems, & policies	e580

(Granberg & Skagerstrand, 2022)

Establish forms of professional collaboration

Focus on the patient:

- Assistive devices based on functional status (vision, hearing, finger mobility etc.)

(Wittich et al., 2021)

Task collaboration

Learn about each others' areas:

- What ´s important in relation to vision?
- What ´s important in relation to hearing?
- What to know in relation to gerontology?
