Glossary:

Geographic cover: Geographical coverage describes the locations or the geographic area which is related to a case where there is no hospital that belongs to the specific Designated Service Provider (DSP) group hospital e.g. Netcare group is the DSP hospital and if there is no Netcare hospital in the region of 50km (geographic cover), then another hospital will be listed as the preferred hospital.

Sub-acute: Sub-acute care is provided on an inpatient basis to those individuals needing services that are more intensive than those typically received in skilled nursing facilities, but less intensive than admission in acute hospital care facilities (previously Step Down facilities). Sub-acute units tend to be housed in skilled nursing facilities or in skilled nursing units.

General hospital: A general hospital is a hospital that does not specialise in the treatment of particular illnesses or surgeries. They can admit for any medical condition or any type of procedure. This includes both private or state hospitals.

Discipline cover: Occurs when a specific hospital in the DSP hospital network cannot render a specific service. E.g. if a DSP hospital cannot cater to cardiovascular procedures/admissions, a hospital that can render the service in a 50km radius will be a preferred provider.
