

Focus on the Evolve Option

The Evolve Option provides cover for hospitalisation at the Evolve Network of private hospitals. There is no overall annual limit for hospitalisation. There is a standard Evolve Option co-payment for all Major Medical Benefits including non-emergency Prescribed Minimum Benefits, except in the case of motor vehicle accidents, maternity confinements or emergency treatment.

You need to use State facilities for all your chronic treatment, including doctors, scripts and medication.

You have cover for two virtual GP consultations from the GP Virtual Consultation Network, which includes Hello Doctor⁺. The Health Platform provides cover for a range of day-to-day benefits, such as preventative screening tests, certain check-ups and more. If you need cover for more day-to-day expenses, like additional GP visits or prescribed medicine, you can make use of Momentum HealthSaver⁺. HealthSaver is a complementary product offered by Momentum that lets you save for medical expenses not covered on your option.

⁺You may choose to make use of additional products available from Momentum Metropolitan Holdings Limited (Momentum), to seamlessly enhance your medical aid. Momentum is not a medical scheme, and is a separate entity to Momentum Medical Scheme. The complementary products are not medical scheme benefits. You may be a member of Momentum Medical Scheme without taking any of the complementary products. This focus page summarises the 2024 benefits available on the Evolve Option. Scheme Rules always take precedence and are available on request.

Major Medical Benefit

This benefit includes cover for hospitalisation and certain specialised procedures/treatment. There is no overall annual limit on hospitalisation. Claims are paid up to 100% of the Momentum Medical Scheme Rate. Under the hospitalisation benefit, hospital accounts and related costs incurred in hospital (from admission to discharge) are covered – provided that treatment has been authorised. Specialised procedures/treatment do not necessarily require admission to hospital and are included in the Major Medical Benefit – provided that the treatment is clinically appropriate and has been authorised.

If pre-authorisation is not obtained, a 30% co-payment will apply on all accounts related to the event and the Scheme would be responsible for 70% of the negotiated tariff, provided authorisation would have been granted according to the Rules of the Scheme. In the case of an emergency, you or someone in your family or a friend must obtain authorisation within 72 hours of admission. Some procedures are only covered in day hospitals, such as cataract surgery and some sinus procedures – see list on page 9.

Chronic Benefit

The Chronic Benefit covers certain life-threatening conditions that need ongoing treatment. On the Evolve Option, chronic benefits are available from State facilities only. Chronic cover is provided for 26 conditions according to the Chronic Disease List, which forms part of the Prescribed Minimum Benefits. Chronic benefits are subject to registration and approval by the Scheme.

Day-to-day Benefit

You have cover for two virtual consultations from the GP Virtual Consultation Network, which includes Hello Doctor. If you need cover for other day-to-day expenses, like GP visits or prescribed medicine, you can choose to make use of Momentum HealthSaver. HealthSaver is a complementary product offered by Momentum that lets you save for medical expenses not covered by your option.

Health Platform Benefit

Health Platform Benefits are paid by the Scheme up to a maximum rand amount per benefit, provided you notify us before using certain benefits. This unique benefit encourages health awareness, enhances the quality of life and gives peace of mind through:

- preventative care and early detection;
- maternity programme; and
- health education and advice.

Benefit schedule

Major Medical Benefit

General rule applicable to the Major Medical Benefit: You need to contact us for pre-authorisation before making use of your Major Medical Benefits. For some conditions, like cancer, you will need to register on a health management programme. The Scheme will pay benefits in line with the Scheme Rules and the clinical protocols that the Scheme has established for the treatment of each condition. The sub-limits specified below apply per year. Should you not join in January, your sub-limits will be adjusted pro-rata (this means it will be adjusted in line with the number of months left in the year)
