

Member Guide 2021

IMPERIAL AND MOTUS MEDICAL AID

(Hereinafter referred to as 'Imperial Motus Med')

This guide contains all the basic information about membership, benefits, contributions and claiming procedures.

Since the guide is very compact, it can unfortunately not cover every aspect of the Scheme. Please discuss any query you may have with the Scheme by phoning the Client Service Department or Member Care Line.

Should you have any queries regarding Imperial Motus Med, please refer these to the Client Service Department on 0860 467 374, via fax on 0860 111 788 or via email to enquiries@imperialmotusmed.co.za, or the Member Care Line on 0860 105 221, via fax to 0866 889 411 or via email to imperialmotusmed@medicall.co.za.

Alternatively, please make use of the following address:

IMPERIAL MOTUS MED
PO Box 32759
Braamfontein
2017.

Every effort has been made to ensure that this member guide is an accurate explanation of the benefits offered by Imperial Motus Med. Please note that this guide does not replace the rules of the Scheme, which take precedence over any wording in this guide should a dispute arise.

UNDERSTANDING YOUR MEDICAL SCHEME

Who is Imperial Motus Med?

Imperial Motus Med is the in-house medical scheme for all permanent employees of Imperial Limited and Motus Holdings Limited and its associated and subsidiary companies.

Who is Medi Call?

Medi Call is contracted as Imperial Motus Med's independent scheme manager and is well-positioned to represent the members of the Scheme independently from the Administrator, Momentum Health Solutions. In this regard, Medi Call reports to the Board of Trustees and is responsible for assisting the Board of Trustees in developing clear and sustainable strategies and to ensure that these strategies are implemented.

As part of the scheme management function, Medi Call monitors the effectiveness of all Imperial Motus Med's contractual agreements, such as the third-party administration and managed care agreements with Momentum Health Solutions and the agreements with designated service providers. In addition, Medi Call specialises in comprehensive client and intermediary services through the Imperial Motus Med Member Care Line **(0860 105 221)**. It assists members and employers with medical scheme related enquiries and the Scheme and employers with the reconciliation of monthly contributions.

Who is Cedar Healthcare Consultants?

As part of the strategy to make the in-house Scheme accessible to more employees of Imperial Limited and Motus Holdings Limited, the Board of Trustees contracted with Cedar Healthcare Consultants, an independent Healthcare Consulting Company, to supply Imperial Motus Med members and employers with consulting services.

In this regard, employers are assisted to align medical aid membership policies with the Imperial Limited and Motus Holdings Limited Companies Policies and employees are consulted with and educated on the benefits offered by Imperial Motus Med. In addition, Cedar Healthcare Consultants facilitates corporate wellness days and assists members in considering appropriate associated products to enhance the benefit structure of the Scheme.

Who is Momentum Health Solutions?

Momentum Health Solutions is a third-party service provider appointed by Imperial Motus Med. Its function is to oversee the administration of Imperial Motus Med and to ensure that all your medical queries, claims payments and collection of member contributions are attended to efficiently.

It also provides custom-made, integrated health risk management services such as HIV & AIDS, disease, medicine, hospital and clinical risk management services.

How will this member guide help you?

This member guide has been developed specifically to help you understand your Scheme and the benefits it offers you. It explains all the relevant processes you need to follow before claiming. Please note that any reference to you as the member in this member guide includes your registered dependants.

What are your responsibilities as a member?

You have to:

- » Understand how Imperial Motus Med works.
 - » Keep the Scheme up to date on any changes to your membership details. If you do not notify the Scheme timeously, this may have financial consequences for you as a member.
 - » Check all accounts from service providers, as well as your claims statements from the Scheme, to make sure that all your details are correct and that your claims have been processed correctly.
 - » Inform the Scheme before you are admitted to hospital, as you require a pre-authorisation number for in-hospital services. If you do not obtain a pre-authorisation number, you may have to make a co-payment of **R500**.
 - » File all your documentation from the Scheme and keep it in a safe place so that you may refer to it at any time.
 - » Keep your membership card in a safe place so that no one else can use it.
 - » Follow all the procedures set out by the Scheme.
- » Review your circumstances annually to ensure that you are on the correct benefit plan.

Points to remember

- » You need to obtain pre-authorisation from the Scheme at least **48 hours prior to the admission date** to hospital or within 48 hours of an emergency admittance for the following events:
 - hospitalisation;
 - admission for mental health and drug or alcohol dependency;
 - confinements (birth of baby);
 - CT, MRI and radio-isotope scans;
 - organ transplants;
 - cancer medication and related treatment; and
 - any other major medical event.
- » For the following benefits, apply for **Scheme approval** in writing, with the relevant doctor's motivation and/or quotation enclosed, as benefits will not be paid unless the Scheme has approved it beforehand:
 - chronic medication;
 - medical and surgical appliances in excess of R1 000;
 - artificial limbs and eyes;
 - maxillofacial and oral surgery;
 - orthodontic treatment and related surgery;
 - root canals, bridges and crowns;
 - dental surgery; and
 - dental implants.
- » The Scheme covers two types of benefits – day-to-day and major medical benefits.

This member guide has been developed specifically to help you understand your Scheme and the benefits it offers you.

Keep your membership card in a safe place so that no one else can use it.

WHAT YOU NEED TO KNOW ABOUT MEMBERSHIP

- » Benefits will only be paid for services deemed medically necessary and if they are obtained from a registered practitioner.
- » Your membership will start on your date of employment and may be subject to waiting periods, during which time no benefits will be paid, although contributions must still be paid to the Scheme. See **page 8 to 10** for more information on waiting periods.
- » Existing employees who choose to register on their spouses' medical scheme must provide documentary evidence that they have been admitted as dependants in order to terminate their membership of Imperial Motus Med.
- » Membership of two medical schemes at the same time is prohibited by law. Therefore employees may not be registered as dependants on their spouses' medical scheme and remain members of Imperial Motus Med.
- » Membership is terminated on the last day of employment. For further details see **pages 10 and 11**.
- » It is a condition of employment that certain categories of employees of Imperial Limited and Motus Holdings Limited who are not registered as dependants on their spouses' medical scheme must join Imperial Motus Med. This is in line with the Imperial Limited and Motus Holdings Limited Companies' Membership Policy that has been approved and implemented by the Companies Executive Committees. The Medical Aid Membership Policy is

available on the Imperial Motus Med website at www.imperialmotusmed.co.za

Contributions

Contributions are calculated on the basis of:

- » the member's income; and
- » the number of a member's dependants.

Contributions are paid for a maximum of three children and late joiner penalties may apply.

Contributions of working members are paid monthly in arrears and must be paid to the Scheme by no later than the third business day of the month following the last business day of the month in which it became due. If it is not paid within 30 days of the due date, the Scheme has the right to give the member notice that if contributions or other debts are not paid within a further 30 days of the notice, his/her membership may be suspended or cancelled.

Contributions for pensioner and continuation members must be paid monthly in advance and must be paid to the Scheme by no later than the first day of the month in which it becomes due. The Scheme has the right to suspend a member's membership should contributions not be paid by the due date. Two notices will be given to the member at his/her domicilium citandi et executandi. His/her membership will be terminated 14 days after the second notice. The member's postal or residential address on his/her application will be deemed to be the domicilium citandi et executandi.

All contributions in respect of new members

are due from the first day of the month during which employment starts, except when the date on which employment starts is the 15th day or later of a month, in which case the contributions will be due from the first day of the following month.

When a member's employment ends on the 15th day or later in a month, contributions for the full month will be due. In cases where employment ends between the first and up to the 14th day of the month, no contribution will be due for that month. The employer must advise the Scheme of the date immediately after it takes place. The benefits of Imperial Motus Med end on the same day that employment ends.

Definition of dependants

Imperial Motus Med defines dependants as follows:

- a) A dependant is a spouse, partner, child, parent or sibling for whom the member is liable for family care and support.
- b) If child dependants are orphaned, the oldest of these is registered as a continuation member in terms of the Scheme rules. Any minor sibling, who is registered as a dependant at the time that the child dependant becomes a continuation member, will become a dependant of the continuation member.

Dependants also include:

» Spouses/common-law spouses

A spouse, to whom the member is married in terms of any law or custom; only one spouse per principal member is allowed. A marriage certificate, or in the case of a customary marriage, an affidavit, needs to accompany your application.

» Partner/fiancé/fiancée

A partner/fiancé/fiancée is a person that the member has a committed and serious relationship with – similar to a marriage – based on mutual dependency and a shared and common household, irrespective of the gender of either party. An affidavit will need to accompany your application.

» Children, grandchildren, stepchildren or adopted children

Child dependants include:

- a member or spouse's child under the age of 21 who is dependent on the member;
- a child who is incapable of earning an income due to mental or physical disabilities or any similar cause; medical proof will need to accompany your application;
- a dependant between the ages of 21 and 25 who is a student and not employed full time; and
- grandchildren – only if the parent of the grandchild is a dependant of Imperial Motus Med as well, or if the grandchild has been placed in the care and custody of the member, spouse or partner by virtue of a court order or legal adoption. Legal documents need to accompany your application.

The maximum age of child dependants, i.e. children, grandchildren, stepchildren or adopted children, on the Scheme is 25, unless they are financially dependent on the member. Members with dependants over the age of 25 who wish to keep their dependants on the Scheme will need to apply annually for continued membership. The Scheme will decide, based on the information that is provided, whether the dependant qualifies for continued membership or not. They will be charged adult dependant contribution rates if the application is accepted.

NOTE: Waiting periods and exclusions may be imposed on your dependant's membership if you do not register him/her with Imperial Motus Med within 30 days of the date on which he/she becomes eligible for membership, such as in the case of adoption (from the date of adoption) or marriage (from the date of marriage). During such a waiting period no benefits will be paid for the dependants, but contributions must still be paid.

» **Indigent parents/siblings**

The parent or sibling must be financially dependent on the member, who should be liable for their support. The member must have sufficient income to maintain the parent and proof of indigence will need to accompany your application (this will need to be resubmitted annually). Indigent parents or siblings will be charged adult dependant contribution rates.

Continuation of membership

Pensioners/retirees

Members of Imperial Motus Med who retire or whose employment is ended by the employer on account of age, ill-health or a disability, may choose to retain their membership.

Widows/widowers and dependants

The dependants of a deceased member, who are registered with the Scheme as his/her dependants at the time of death, are entitled to membership of the Scheme until they become members of another medical scheme.

Waiting periods

How soon after joining the Scheme can you claim if you have a waiting period?

The criteria for the application of waiting

periods apply to new members and dependants individually and are as follows:

A **condition-specific waiting period** is a period during which a beneficiary is not entitled to claim benefits for a condition for which medical advice, diagnosis, care or treatment was recommended or received within the 12-month period ending on the date on which an application for membership was made. The waiting period is applied for 12 months.

A **general waiting period** is a period during which a beneficiary is not entitled to claim any benefits for a three-month period. However, the Scheme pays for prescribed minimum benefits (PMBs), including emergencies, as defined by PMB legislation.

No waiting periods will apply if application for membership is:

- » as a result of a change of employment – you need to join Imperial Motus Med within 90 days of joining the company;
- » within 30 days of your transfer to an associated company or subsidiary of Imperial Limited or Motus Holdings Limited, where it is a condition of employment that you become a member;
- » within 30 days of a specified period of secondment; or
- » if you had a break in membership with a medical scheme for a period of 90 days because you lived or worked outside the borders of South Africa.

Waiting periods may apply

If you don't fall into the previous categories and apply for membership after 90 days of being employed, a condition-specific waiting period may apply:

- » if you have had a break in membership for a period of 90 days or more; or
- » if you have had a break in membership for a period of less than 90 days and enjoyed previous membership of up to 24 months before applying for membership of Imperial Motus Med. (Please note: Any unexpired waiting periods pending will continue to apply.)

If you choose to apply for membership after 90 days of having joined either of the companies and have had previous medical scheme membership of up to 24 months, a 12-month condition-specific waiting period may be imposed on your membership. If you have had previous membership of more than 24 months, a three-month general waiting period will be imposed. You will have no coverage for this time, except for prescribed minimum benefits.

Membership of the following entities will be recognised when determining whether waiting periods should be imposed:

- » if you were a uniformed employee of the South African National Defence Force or a dependant of such an employee, who received medical benefits from the South African National Defence Force; or
- » if you have been a beneficiary of the Permanent Force Medical Continuation Fund.

Late-joiner penalties

Contribution penalties will be applied in respect of adult dependants over the age of 35 years, according to the rates below:

- » Age over 35 years: **1 to 4 years** at 0.05 multiplied by the relevant contribution
- » Age over 35 years: **5 to 14 years** at 0.25 multiplied by the relevant contribution
- » Age over 35 years: **15 to 24 years** at 0.50 multiplied by the relevant contribution
- » Age over 35 years: **25 or more years** at 0.75 multiplied by the relevant contribution.

CREDITABLE COVERAGE is any period during which a late joiner was:

- a) a member or a dependant of a medical scheme, but excluding any period of coverage as a child dependant under the age of 21;
- b) a member or a dependant of an entity doing the business of a medical scheme, which at the time of his/her membership of such entity was exempt from the provisions of the Act;
- c) a uniformed employee of the South African National Defence Force; or
- d) a member or a dependant of the Permanent Force Continuation Fund, but excluding any period of coverage as a dependant under the age of 21.

Seconded employees

A member and his/her dependants will not forfeit any benefits or interest in the Scheme on the grounds of having been seconded for service, in or outside the borders of the Republic of South Africa, but will continue to be a member of the Scheme.

Changes in membership

If your membership details change for any of the following reasons, your **Payroll Department and Imperial Motus Med** must be notified 30 days in **advance**:

- » cancellation of dependants;
- » change of address or banking details, for claims refunds or debit order deductions;
- » your child becomes independent/self-supporting; or
- » your child is registered as a dependant of a member of another medical scheme.

If your membership details change for any of the following reasons, your **Payroll Department and Imperial Motus Med** must be notified within 30 days **of the event**:

- » registration of dependants;
- » change in marital status;
- » birth or adoption of a child; or
- » death.

Cancellation of membership

Your membership of the Scheme ends:

- » on the day your employment with the employer ends;
- » upon death;
- » in the event of non-payment of contributions;
- » in the event of non-payment of shortfalls;
- » in the event of abuse of privileges;
- » in the event of fraud;
- » in the event of non-disclosure of material information;
- » in the event of submission of false claims; and
- » in the event of misrepresentation.

Termination of membership

Upon resignation or termination of employment with Imperial Limited or Motus Holdings Limited and their associated and subsidiary companies, the member and his/her dependants will not be entitled to claim benefits from the Scheme for services rendered after the date on which employment ended. Any claims incurred before the date on which employment ended will be processed subject to the Scheme rules and the member's available benefit limits.

NOTE: The Scheme has no responsibility or liability in respect of a member who does not comply with the requirements of the Scheme. If a member fails to apply for registration of a newborn child within the 30-day period, but applies for the registration of the child within six months of the birth, the Scheme will register the child from the first day of the month following the date on which the member applied. Benefits will accrue from the date of registration.

If any of the above applies, you will need to complete a Change in Membership Details form, which is obtainable from your Payroll or the Scheme's website. A copy of the applicable legal documentation, e.g. birth certificate or death certificate, must accompany your Change in Membership Details form.

Failure to advise the Scheme of a change in membership details may result in waiting periods being imposed. Furthermore, if claims are being paid in respect of a dependant or member and the Scheme is notified too late of the cancellation of the member or dependant's membership, the member will be liable for all costs in respect of benefits paid by the Scheme after the cancellation date.

PLEASE TAKE SPECIAL NOTE OF THE FOLLOWING:

- » You will only be covered by the Scheme until the date your employment ended and not until the end of that month or for an extended period.
- » Any services rendered after the date your employment ended are for your account.
- » Please inform the Scheme in advance of your new postal address and of any changes in banking details to ensure that you receive any benefits that are due to you.

UNDERSTANDING YOUR BENEFITS

Benefit plans

Imperial Motus Med has two benefit plans, namely the Imperial Motus Med Health Plan and the Imperial Motus Med Budget Plan.

Imperial Motus Med Health Plan

This is a traditional plan that provides unlimited private hospital cover at 100% of the Medical Scheme Rate (MSR) and routine day-to-day benefits at 85% of the MSR up to generous annual limits.

Imperial Motus Med Budget Plan

The Budget Plan provides low-cost cover for essential, basic healthcare with unlimited in-hospital cover at 100% of the MSR, no chronic medication non-prescribed minimum benefits, a general practitioner network with specialist referrals and day-to-day benefits at 85% of the MSR, with relatively low annual limits.

Pro rata limitation of benefits

Imperial Motus Med Health Plan
Members who are registered on the Imperial Motus Med Health Plan during the course of a financial year will be entitled to the benefits set out in Annexure B of the rules of the Scheme. The maximum available benefits will be adjusted in proportion to the period of membership, which is calculated from the date of admission to the end of the financial year.

Imperial Motus Med Budget Plan
The annual limits for members who register on the Imperial Motus Med Budget Plan will be calculated on a pro rata basis for members joining from 1 February to 31 July of each year, but those joining 1 August to 31 December of each year will have access to the same benefit limits as those joining on 1 July of the year.

Benefit year

The benefit year runs from 1 January to 31 December of any year. All limits quoted in the benefit schedules on pages 14 to 53 of this member guide are effective from 1 January and are valid for the benefit year. Should the Board of Trustees decide to change any of the benefits, we will communicate the changes to you as soon as possible.

Prescribed minimum benefits (PMBs)

In terms of the Medical Schemes Act, all schemes must offer their members PMBs for the treatment of certain medical conditions. The medical conditions covered are prescribed by the Minister of Health. The Scheme will pay for the diagnosis, treatment and care of these conditions in full, provided the services are rendered by a designated service provider.

DAY-TO-DAY BENEFITS (OUT-OF-HOSPITAL EXPENSES)

IMPERIAL MOTUS MED HEALTH PLAN

Human papillomavirus (HPV) vaccine for all females	100% of MSR	One treatment (prescribed dose of 3 injections) in a lifetime Major Medical Expenses
Pap Smear	100% of MSR	One per beneficiary per annum Major Medical Expenses
Mammograms	100% of MSR	One every 2 years for females 38 years and older Major Medical Expenses
Prostate-Specific Antigen (PSA) Test	100% of MSR	One every 3 years for males between 30 and 59 years One every 2 years for males between 60 and 69 years One every year for males 70 years and older Major Medical Expenses
Dexa scan (Bone Density)	100% of MSR	Limited to R1 800 and subject to one scan every 3 years for beneficiaries 50 years and older Major Medical Expenses
Glaucoma screening	100% of MSR	One every 2 years for beneficiaries between 40 and 49 years One every year for beneficiaries 50 years and older Major Medical Expenses
Colorectal Cancer Screening Faecal Occult Blood Test only	100% of MSR	One every year for beneficiaries 40 years and older Major Medical Expenses

PRESCRIBED MINIMUM BENEFITS (PMBs)

BENEFIT DESCRIPTION	IMPERIAL MOTUS MED HEALTH PLAN		IMPERIAL MOTUS MED BUDGET PLAN	
	% BENEFIT PAYABLE	ANNUAL LIMITS FOR 2021	% BENEFIT PAYABLE	ANNUAL LIMITS FOR 2021
Any service that falls under the State's PMBs	100% of Cost	Unlimited	100% of Cost	Unlimited

Note: Refer to Annexure B schedule of benefits, point 6 in the Scheme rules for PMB-related services.

SOME IMPORTANT DEFINITIONS TO UNDERSTAND

Medical Scheme Rate (MSR) The rate at which Imperial Motus Med pays for medical products and services, which will be determined by the Scheme from time to time.

The **Mediscor Reference Pricing (MRP)** model is applicable to all medicines with generic equivalents. The MRP sets a maximum reimbursable price for a list of similar generic products with a lower cost than that of the original medicine. If a member chooses to use medicine that is more expensive than the MRP, the member will have to pay the difference between the price of the chosen medicine and the MRP. This is applicable to both preferred and non-preferred formulary medicines. Co-payments can be avoided or reduced by using a generic equivalent that costs less than the MRP. We encourage the use of generic equivalent medicines in the interest of cost-effective care.

Medicine Price refers to the Single Exit Price, plus a dispensing fee. Please be aware of this in order to ensure you are not charged additional costs on medicine.

Prescribed minimum benefits (PMBs) refer to the minimum benefits that must be provided by a medical scheme in terms of the Medical Schemes Act (no 131 of 1998) and its regulations. Please contact the Call Centre for more information on these benefits.

Board of Healthcare Funders refers to the representative organisation for the majority of medical schemes throughout South Africa.

A **designated service provider** is a healthcare provider or group of providers selected by the Scheme as preferred providers to provide diagnosis, treatment and care in respect of one or more prescribed minimum benefit conditions.

The **Imperial Motus Med Specialist Network** was implemented by the Scheme on 1 January 2018 to contribute to sustainable contribution increases; members could be liable for co-payments if a non-network specialist is used.

Major Medical Expenses (MME) are medical expenses for in-hospital treatment and certain out-of-hospital expenses, for example for oncology, dialysis and Prescribed Minimum Benefits (PMBs). (See benefit schedule - pages 24 to 53.)

MANAGED HEALTHCARE

Imperial Motus Med's managed healthcare strategy consists of the following three components:

1. Pharmacy benefit management
2. Management of high-risk beneficiaries
3. Hospital risk management

[Continued overleaf >](#)

1 Pharmacy benefit management

Since chronic conditions may be regarded as life-threatening and require ongoing intervention, we manage these through chronic care management. Imperial Motus Med covers medication for prescribed minimum benefit (PMB) and non-PMB chronic conditions on the Imperial Motus Med Health Plan and medication for only PMB chronic conditions on the Imperial Motus Med Budget Plan. Should your doctor diagnose you or one of your dependants with a medical condition for which you need chronic medication, you need to apply for the medication to be registered as chronic medication with the Scheme.

The process to obtain authorisation for your chronic medication is as follows:

- » Your doctor can apply by contacting Imperial Motus Med's Medicine Risk Management (MRM) Team on 0860 467 374 with all the relevant details of your application. The request can be processed immediately – while your doctor is on the phone – unless additional information is required, such as test results or a letter of motivation.
- » You can apply in writing by completing an MRM application form. Both you and your treating doctor need to complete this application form and the form must be accompanied by the relevant test results, specialist reports and letters of motivation. The application form is available at www.imperialmotusmed.co.za or from the Client Service Department on 0860 467 374. The completed form can

be faxed to 0860 111 788 or emailed to chronic@imperialmotusmed.co.za.

- » Updates to your existing chronic medication can be done through the same two processes explained above. Please note that it takes a maximum of five (5) working days for your application to be processed once we've received it.
- » Clinical entry criteria, as outlined on the application form, will be applied to your application before chronic medication benefits are authorised. MRM's pharmacists, supported by the medical advisors, will review your application to ensure that cost-effective medication is authorised, which will ensure cost containment without compromising on the quality of care.
- » Medicines will be covered if they are listed on the Scheme's medicine formulary (list of prescribed medicines) and are within the Scheme's maximum benefit limit. Chronic medicines will be approved from the date that we receive your full application – fully completed and including all supporting documentation. Following the outcome of your application, an authorisation letter will be sent to you and an authorisation period indicated for each approved medication item.
- » If any medicines have been rejected or if additional information to support your application is required, the reasons will be given. Please note that it takes a maximum of five working days for your application to be processed.

Imperial Motus Med applies protocols and formularies within therapeutic reference pricing to all medication that is covered.

This includes chronic, acute, and over-the-counter (OTC)/pharmacy-advised therapy (PAT) medication. Please note that PAT medication is only applicable to the Health Plan. Should you choose to make use of the original, brand-name product or a more expensive generic equivalent, there will be a co-payment that you will be responsible for making.

Please note that a chronic medication prescription for schedule 3 to 5 medication can be issued for six months. Remember to renew your prescription every six months. Prescriptions for schedule 6 and 7 medication cannot be repeated and a new prescription needs to be obtained and provided to your pharmacy every month so they can dispense your medication.

2 Management of high-risk beneficiaries

The Managed Care provider, Momentum Health Solutions, will identify all high-risk beneficiaries with one or more chronic conditions and allocate a lifestyle coach to each. The purpose of the coach is to:

- » monitor the beneficiary following hospitalisation to identify beneficiaries that require further management early;
- » check claims to determine the appropriateness of treatment and compliance with treatment plans;
- » develop individualised treatment plans in conjunction with the treating doctor;
- » monitor compliance of the required chronic condition's treatment by the beneficiary and obtain authorisation for further treatment, if required; and

- » remain in regular contact with the beneficiary.

3 Hospital risk management

The aim of hospital risk management is to manage major medical expenses. Qualified medical personnel assess requests for hospitalisation to ensure appropriateness and cost-effectiveness. If all the relevant criteria are met, pre-authorisation is granted.

This provides an opportunity to assess, monitor and coordinate each request from admission to discharge. The following services should be pre-authorised:

- » hospital admissions or admissions to a day clinic;
- » specialised radiology;
- » home nursing;
- » step-down or sub-acute care;
- » alternative therapy;
- » oxygen and Stoma products;
- » psychiatric treatment;
- » cancer treatment; and
- » home oxygen.

The process for obtaining pre-authorisation for a major medical event is as follows:

- » Pre-authorisation should be requested at least 48 hours before the service is rendered or even earlier to ensure all relevant information is submitted that could otherwise delay authorisation. Authorisation should be obtained within 48 hours or on the first working day after an emergency admission. All initial requests for admission will be screened for medical necessity and appropriateness using clinical guidelines and best practice principles.
- » A specialist care coach will inform you of what to expect, your available benefits, the applicable Scheme rules and any other concerns he or she may have. Based on the information provided, a request for pre-authorisation can be approved, left pending or declined. In each instance, feedback will be provided.
- » If the request is approved, an authorisation number is granted and written confirmation is sent to you and the service provider. You will also receive an SMS with an authorisation number.

You need to provide the following details when you call to obtain pre-authorisation:

- » membership number;
- » ID number of the main member;
- » name or date of birth of the patient;
- » name of hospital;
- » name or practice number of the admitting doctor;
- » reason for the admittance, including ICD-10 codes; and
- » date of admission.

You will be liable for a R500 co-payment if pre-authorisation is not obtained before the admission.

DISEASE MANAGEMENT PROGRAMMES

In addition to the three managed healthcare components outlined in the previous section, the following disease management programmes are in place:

1. Oncology (cancer) programme
2. HIV programme

1 Oncology (cancer) programme

The purpose of the programme is to provide a cost-effective and evidence-based oncology benefit to members. Enrolment on the programme is compulsory for all beneficiaries who receive oncology treatment.

Benefits of enrolment on the programme

- » Access to the Scheme's oncology benefit
- » Cost-effective management of annual oncology benefit
- » Assistance with authorisation for appropriate health services
- » Co-ordination of treatment with other treating doctors

Members will receive holistic education, care and support to better manage their condition.

CONTACT DETAILS FOR THE ONCOLOGY PROGRAMME:

Tel: 0860 467 374
Email: oncology@imperialmotusmed.co.za
Fax: 0861 222 552
Post: PO Box 32759, Braamfontein 2017

2 HIV programme

HIV & AIDS management

The purpose of the HIV programme, HIV YourLife Programme, is to identify members who have contracted HIV or are living with AIDS and manage their treatment. We also ensure access to quality care and optimal use of the benefits that are available to manage the disease. Members are followed up on for counselling and support based on the stage of the disease they are in and emphasis is placed on adherence to treatment plans.

Benefits of enrolment on the programme

Joining the programme soon after diagnosis ensures that you can access appropriate medication, support and education and therefore enjoy a healthier and more productive life. You will also be assisted in developing life skills that will help in making decisions about your lifestyle. You will receive information and advice on treatment and get counselling and continuous support. This will in turn minimise hospitalisation associated with opportunistic diseases.

Once you're registered on the programme you can access the following services:

- » post-exposure prophylaxis (PEP) medication;

- » prevention of mother-to-child transmission;
- » adult chronic medication and treatment for children;
- » prophylaxis for opportunistic infections; and
- » a treatment plan for doctor's consultations and investigations.

Anti-retroviral medication approval process

- » Treatment will be authorised as per treatment guidelines.
- » An authorisation letter will be sent to both the member and doctor explaining the authorised medication and treatment plan.

Confidentiality

All communication is handled in a confidential manner. Your employer, friends or even the Scheme's Board of Trustees will not have access to information about your HIV status. Access to your records will be limited to your specialist care coach and the clinical team in the dedicated HIV management unit.

CONTACT DETAILS FOR THE HIV PROGRAMME:

Tel: 0860 109 793 – this is a dedicated, confidential helpline
Fax: 012 675 3848
Email: hiv@momentum.co.za

Medical emergency and ambulance services

In the case of an emergency, you have access to the medical emergency services offered by **Europ Assistance South Africa**. All emergency services case managers and nursing staff are housed in one call centre in Constantia Kloof in Johannesburg.

Two dynamic services offered by **Europ Assistance South Africa** to Imperial Motus Med members are the **Personal Health Advisor** and **Emergency Medical Services**. Both these services are available on one easy-to-remember number:

0861 RESCUE (0861 737 283)

What benefits are included?

- » Emergency medical transportation
- » 24-hour telephonic medical advice and emergency assistance hotline
- » Escorted return of minors
- » Arrangements for compassionate visit by a family member
- » Inter-hospital transfers
- » Return of mortal remains

What to do in an emergency

Dial 0861 RESCUE. You will be given two options: press 1 for emergency services or 2 for the Personal Health Advisor. When an agent answers the call, you are requested

to give your name, surname and Imperial Motus Med membership number. If, in the case of an emergency, you do not have your membership number on hand, your name and surname will do.

The **Personal Health Advisor** is a 24-hour health advisory service manned by professional, experienced nurses. The facility offers a comprehensive database of symptom assessment, which allows safe and appropriate advice to be given regarding the management and treatment of illnesses and conditions. The service is offered for both incoming and outgoing calls and in most official South African languages.

Personal Health Advisor

This service includes:

- » the Audio Health Library, which lists a range of symptoms and ailments;
- » emergency medical advice, which provides appropriate first aid advice to the caller;
- » assessment of day-to-day symptoms;
- » drug database, which lists different drugs and medication, contra-indications, dosage and whether there are dietary specifications;
- » procedures to be followed immediately after poisoning, as well as long-term treatment;
- » health counselling for chronic conditions and diseases/conditions, such as cancer, HIV and AIDS, diabetes and asthma, where the patient can receive a better understanding of the disease and the specific treatment given; this counselling helps the patient and those around him/her cope with the problem;
- » addiction counselling to assist the caller with coping skills or to refer them to appropriate medical care clinics;
- » stress management, where counselling, advice and relaxation techniques are discussed with the callers;
- » trauma debriefing by the Personal Health Advisor nurses, who handle the debriefing of any sort of trauma on a daily basis; and
- » assistance for rape survivors during which initial counselling is immediately available to the survivor; after the assessment and counselling, the survivors of rape are directed to the closest medical centre.

Emergency medical services

This is a 24-hour a day, immediate response service to the scene of the medical emergency, where advanced life-saving resuscitation is provided, if needed. A medical emergency is a life-threatening situation such as a heart attack, drowning, snakebite or bodily injury, such as a gunshot wound or motor accident injury. If you experience a medical emergency and are unable to get to a hospital, you will be stabilised before transportation to the closest, most appropriate medical facility.

Please be aware that, unless in situations beyond your control – for example if you are unconscious or unable to talk – you must phone Europ Assistance first for emergency medical assistance. This not only ensures that the best quality service is provided, but also that the claim is channelled correctly. If you are unable to communicate and another person calls for emergency assistance on your behalf, the claim will be treated appropriately, but Europ Assistance must be made aware of the situation as soon as possible.

EXCLUSIONS AND LIMITATIONS

Expenses incurred in connection with any of the following will not be paid by the Scheme, unless otherwise authorised by the Board of Trustees:

1. Exclusions

The Scheme will pay in full, without co-payment or use of deductibles, the diagnosis, treatment and care costs of the prescribed minimum benefits as per regulation 8 of the Act. Furthermore, where protocol or a formulary drug preferred by the Scheme has been ineffective or would cause harm to a beneficiary, the Scheme will fund the cost of the appropriate substitution treatment without a penalty to the beneficiary, as required by regulation 15H and 15I of the Act. The following will not be paid by the Scheme unless otherwise authorised by the Board:

1.1 Optometry

1.1.1 Tinted or coloured plano lenses and other cosmetic effect contact lenses (other than prosthetic lenses), and contact lens accessories and solutions.

1.1.2 Optical devices which are not regarded by the relevant managed healthcare programme as clinically essential or clinically desirable.

1.2 Breast reduction, except where associated with breast reconstruction following a diagnosis of cancer or if the beneficiary is diagnosed with gigantomastia in pregnancy accompanied by complications such as ulceration of breast tissue, massive infection, tissue necrosis with slough, significant haemorrhage or if delivery is not imminent.

1.3 Treatment of scars, keloids and excision of a tattoo are deemed to be for cosmetic purposes except in cases of severe burn scars on the face and neck and functional impairment such as contractures. Where necessary the Board will refer cases to a panel of medical specialists for a final decision. The decision of the Board following advice from the specialist panel will be final.

1.4 Any medical and/or surgical procedure related to the Gamete Intrafallopian Transfer, In-Vitro fertilization, Zygote Intrafallopian Transfer, Pronuclear Stage Tubal Transfer or any other transfer or egg or sperm collection will not be covered by the Scheme. Any other treatment or investigation not covered in respect of Code 902M (Diagnosis: Infertility) will not be covered by the Scheme.

1.5 Donor cost – organ harvesting and donor cost, in case where the donor recipient is not a member of Imperial Motus Med.

1.6 Otoplasty for children 12 years of age or older.

1.7 Expenses incurred by a member or dependants of a member in the case of, or arising out of, wilful self-injury, professional sport, speed contests and speed trials except for Prescribed Minimum Benefits.

1.8 Laparoscopic surgery for the removal of an appendix except in the event of an emergency procedure.

1.9 Investigations, operations or treatments for cosmetic purposes, obesity, artificial insemination, impotence and erectile dysfunction or treatment of an experimental nature.

A medical or surgical procedure, treatment, cause of treatment, equipment, drug or medicine will be regarded as experimental:

- if it is not widely accepted and known to be safe, effective and appropriate for the treatment of illness or injury by a consensus of professional medical specialists that are recognised as such by the South African medical community;
- if it is under study, investigation, in a test period or part of or in a clinical research state;

- where no definite outcome results, following at least a five-year trial period, are available; or

- if it is more expensive than that which is generally available and does not significantly change the outcome of the procedure, treatment or taking of medicine or drug; provided that should a member prefer to have the more expensive treatment, the Scheme shall pay the reasonable and customary fees associated with the treatment generally available.

1.10 Holidays for recuperative purposes.

1.11 Purchase of:

- patent medicine and proprietary preparations
- applicators, toiletries and beauty preparations
- bandages, cotton wool and similar aids
- patented foods, including baby foods
- contraceptives and apparatus to prevent pregnancy
- tonics, slimming preparations, drugs as advertised to the public and vitamins which are not approved by the Scheme
- household and biochemical remedies
- sunglasses
- exercise equipment
- any drug or medicine not registered by the Medicines Control Council or similar authority
- any medicines not registered for that specific condition.

1.12 All costs that are more than the annual maximum benefit to which a member is entitled in terms of the rules of the Scheme.

1.13 Examinations for insurance, employment, visas, pilot and driving licences or examinations for enrolment to university and college.

1.14 Any member-related travelling or conveyance by whomsoever and of whatsoever nature except as by ambulance or ambulance aircraft.

1.15 Dentistry

1.15.1 Labial frenectomy in respect of beneficiaries under the age of 12 years old.

1.15.2 Dental procedures or devices which are not regarded by the relevant managed healthcare programme as clinically essential or clinically desirable.

1.15.3 General anaesthetic, conscious sedation and hospitalisation for dental work, except in the case of patients under the age of eight years or bony impactions of the third molars.

1.15.4 Periodontic plastic procedures for cosmetic reasons.

1.15.5 Tooth bleaching, lingual (invisible) orthodontic braces and gum guards for sports purposes.

1.16 The purchase of medicines prescribed by a person not legally entitled thereto.

1.17 Robotic assisted surgery.

1.18 Costs of appointments cancelled or not kept by members.

1.19 Costs for services rendered by:

1.19.1 Persons not registered in terms of any law;

1.19.2 Any institution, except a state or provincial hospital, not registered in terms of any law.

1.20 Services which are regarded as not medically necessary. A treatment, procedure, supply, medicine, hospital or specialised centre stay (or part of a hospital or specialised centre stay) will be regarded as medically necessary if:

- a) it is appropriate and essential to the diagnosis and treatment of illness or injury of the member; and
- b) does not exceed, in scope, duration or intensity of the level of care that is needed to provide a safe, adequate and appropriate diagnosis or treatment; and
- c) it has been prescribed by a doctor; and
- d) it is consistent with the widely accepted professional standards of the medical practice in South Africa and in respect of overseas cover, the United States of America; and
- e) in the case of inpatient care, it cannot be provided safely on an outpatient basis.

The medical need shall be determined by the Scheme taking into account the above requirements. The fact that a doctor has prescribed, recommended, approved or provided a treatment, service, supply or confinement shall not in itself be regarded as proof that a service is medically necessary. Where necessary the Board will refer cases to a panel of medical specialists for a final decision. The decision of the Board following advice from the specialist panel will be final.

1.21 The following medicines, unless they form part of the public sector protocols and are authorised by the relevant managed healthcare programme:

1.21.1 Any specialised drugs that have not convincingly demonstrated a survival advantage of more than three months in advanced or metastatic solid organ malignant tumours, for example Sorafenib for hepatocellular carcinoma and Bevacizumab for colorectal and metastatic breast cancer.

2. Limitation of benefits

Provided that no limitations shall apply in respect of any service falling within the minimum benefits other than as provided for in Rule 3 (waiting periods), the following limitations shall apply:

2.1 The maximum benefits to which a member and his/her dependants shall be entitled in any financial year shall be limited as set out in Annexure B.

2.2 Members admitted to the Imperial Motus Med Health Plan during the course of a financial year shall be entitled to the benefits set out in Annexure B with the maximum benefits being adjusted in proportion to the period of membership calculated from the date of admission to the end of the particular financial year.

2.3 The annual limits for members admitted to the Imperial Motus Med Budget Plan will be allocated on a pro rata basis for members joining from 1 February to 31 July of each year, but those joining 1 August to 31 December of each year will have access to the same benefit limits as those joining on 1 July of the year.

2.4 In cases where a specialist, except an eye specialist or gynaecologist, is consulted without the recommendation of a general practitioner, the benefit allowed by the Scheme, may, at the discretion of the Board, be limited to the amount that would have been paid to a general practitioner for the same service.

2.5 Unless otherwise decided by the Board, benefits in respect of medicines obtained on a prescription are limited to one month's supply for every such prescription or repeat thereof.

2.6 In cases of illness of a protracted nature, the Board shall have the right to insist upon a member or dependant of a member consulting any particular specialist the Board may nominate in consultation with the attending practitioner.

2.7 Subject to the general limitations on benefits determined by the Board from time to time, in the event that any other party may be liable for costs incurred for treatment of sickness conditions or injuries sustained by a beneficiary, the Scheme shall cover the appropriate medical costs on behalf of the beneficiary in accordance with the available benefits, after which the Scheme may recover the cost from the appropriate party.

In the event that the Scheme effects payment of any such costs incurred by the beneficiary prior to the beneficiary recovering all or a portion of such costs from another party, then the beneficiary shall:

2.7.1 be liable to repay to the Scheme all amounts or a portion thereof paid by the Scheme and recovered by or on behalf of the beneficiary from the party responsible for compensating such beneficiary, after the deduction of any legal costs or deductions that may have been incurred in the recovery of such amount;

2.7.2 disclose to the Scheme, alternatively, instructs his/her legal representative to disclose to the Scheme, the full extent of any compensation awarded in respect of past and future medical expenses;

2.7.3 sign all documentation as may be required by the Scheme to obtain copies of all such information not in the Scheme's possession, relating to the beneficiary's medical accounts and records from the relevant practitioners and/or medical institutions;

2.7.4 provide the Scheme with such assistance as the Scheme may reasonably require should the Scheme wish to recover any amounts paid on behalf of the member for which a third party may be liable.

CLAIMING MADE EASY

Submission of claims

Please **do not** fax claims to the Scheme, as these will not be processed. Claims may be emailed to the Scheme if the claim is clear enough.

» Please sign all accounts and submit them to Imperial Motus Med, PO Box 32759, Braamfontein 2017.

» All accounts submitted must contain the following information:

1. your membership number;
2. your name and initials;
3. date of service/treatment;
4. nature of treatment/illness;
5. tariff code, where applicable;
6. name of patient (not a nickname) as it appears on your membership card;
7. name and practice number of the service provider, e.g. doctor or pharmacy;
8. name of the Scheme;
9. the amount charged; and
10. ICD-10 diagnosis code.

- » Ensure that the services charged on the account are correct.
- » If you have already paid an account, write 'account paid' clearly on the account and attach the receipt.
- » The Scheme cannot process receipts received without detailed accounts.
- » Accounts must be submitted to the Scheme within four months of treatment, i.e. before or by the last day of the fourth month after the month in which the service was rendered, after which the claims will be rejected as stale.
- » Should the claim be for the treatment of injuries in which a third party, e.g. motor vehicle accident claim or occupational injuries and diseases claim, could be involved, a statement of how the injuries were sustained must accompany the claim.
- » Ensure that all service providers have your correct membership number and the correct address to which claims should be sent.
- » In case of hospital treatment, write 'hospital treatment' on the account with your authorisation number.

Electronic submission of claims

The majority of doctors and other service providers (notably large pathology laboratories) submit claims directly to the Scheme using electronic data interchange (EDI).

This process normally works extremely well and ensures quick, direct payment to the supplier.

However, it does not absolve the member from the ultimate responsibility for ensuring that the account is settled, or for any co-payment that is due. Suppliers who submit claims directly to the Scheme are obliged to send duplicate accounts to members to check whether the services and the amounts charged are in fact correct.

Check your claims statement to verify that the accounts have been paid. It could be inconvenient for members when such an account is discovered to be unpaid after the maximum period for the submission of claims has passed.

Should changes be made to the benefits granted by the Scheme, claims submitted after the changes will be paid according to the rules that existed at the date of the service and not the rules that exist at the date when the claims are submitted or received.

Claiming for medicines dispensed directly by pharmacists – pharmacist-advised therapy (PAT) or over-the-counter (OTC) medicine (Imperial Motus Med Health Plan only)

Imperial Motus Med also offers you a facility to buy schedule 1 and 2 medicines from a registered pharmacist without a doctor’s prescription. This is called pharmacist-advised therapy or over-the-counter medicine. If you make use of this facility, no levy will be payable.

Use this facility for minor complaints such as coughs and colds to avoid unnecessary visits to your doctor. However, do not neglect to see your doctor if you are really ill – there is no price for good health.

You may claim for medicines that have been dispensed by a pharmacist but have not necessarily been prescribed by a doctor. These claims will be deducted from your acute medicine limit. Your benefits for these claims will be paid at 100% of the Mediscor Reference Price (MRP) up to a specified maximum per prescription. See the table of benefits on **page 20** for more details.

Please remember that medicines that are purchased at a supermarket will not be accepted for payment.

Pharmacists have a clear understanding of medicines and drugs that may be dispensed under this benefit.

Claiming for medical expenses incurred outside the country

If you are intending to travel abroad, it is wise to take out additional medical cover. Your travel agent will be able to assist you with this.

- » If you are injured or become ill while outside South Africa on holiday or business, you may submit the account to the Scheme for a refund.
- » You will be responsible for settling the account, after which the benefit due to you will be paid to you.
- » The benefit will be paid according to the equivalent medical scheme rates and will be refunded in South African rands.

» This benefit is subject to an Overall Annual limit of R1 million per beneficiary per annum. Please note that any medical expenses incurred during an overseas stay exceeding a period of three months will not qualify for benefits.

Motor vehicle accidents (MVAs)

In terms of the rules of the Scheme, (Annexure C, point 2.7, page 109 of the rules) the Scheme shall cover the appropriate medical costs for the treatment of sickness conditions or injuries sustained by a member or a dependant where any other party, for example the Road Accident Fund (RAF), may be liable on behalf of the beneficiary in accordance with the benefits available, after

which the Scheme may recover the cost from the appropriate party.

MVA claims are identified when specific diagnoses are reflected on accounts, e.g. those related to fractures or soft tissue injuries. Sometimes doctors or hospitals send an injury report with the accounts stating that the member or dependant was involved in a motor vehicle accident. Alternatively, the member or the attorneys could also contact the Scheme via fax or telephone. MVA claims have certain procedures, which must be strictly adhered to:

- » If you have been involved in an accident where a third party is liable for payment, please inform the Scheme as soon as possible.
- » The attorney and the member must submit a written undertaking that the Scheme will be refunded by the attorney when the claim has been settled by the RAF.
- » The Scheme will then assist the member by paying the claims to the service providers, such as the hospitals and doctors concerned.
- » All claims will be paid in accordance with the Scheme rules and be subject to the benefits available for the specific treatment.
- » Any delay in lodging a claim or in appointing an attorney will delay the payment of claims.
- » **Cases that are rejected by the RAF will be covered by the Scheme, subject to the beneficiary's benefit limits. However, a letter will be required from the RAF stating that the claim has been rejected.**

Payment of claims

The Scheme pays all accounts up to the benefit limit only. If your service provider charges more than the benefit limit, or your benefits are exhausted, you will be liable for payment of the difference in price, which must be paid directly to the service provider.

Payments to members and service providers are made twice a month. After the claim has been processed, you and the service provider will receive a claims statement setting out how the claim has been dealt with.

Refunds for settled claims

Payment to members will be made directly into your specified banking account. Please ensure that the Scheme has your correct banking account details or address at all times.

SHORTFALLS

A shortfall on an account may arise when the benefit payable by the Scheme is less than the amount charged.

HELPING TO CURB YOUR COSTS

The Scheme is there to provide you with cover when you need it. You can help curb future costs by using your Scheme benefits carefully:

- » Always talk to your doctor about whether treatment is necessary.
- » Negotiate with your doctor to charge medical scheme rates or obtain the services from a contracted doctor.
- » Use day clinics where possible.
- » Get a second opinion if surgery or expensive treatments are suggested.
- » Check your benefit limits (where applicable) before seeking medical treatment.
- » Use generic medicines where possible – it can cost up to 80% less than brand-name medicines.
