Focus on the Evolve Option

The Evolve Option provides cover for hospitalisation at the Evolve Network of private hospitals. There is no overall annual limit for hospitalisation. There is a co-payment for all Major Medical Benefits, except in the case of motor vehicle accidents, maternity confinements or emergency treatment.

You need to use State facilities for all your chronic treatment, such as doctors, scripts and medication.

The Health Platform provides cover for a range of day-to-day benefits, such as preventative screening tests, certain check-ups and more. If you need cover for more day-to-day expenses, like GP visits or prescribed medicine, you can make use of the HealthSaver[†]. The HealthSaver is a complementary product offered by Momentum that lets you save for medical expenses not covered on your option.

[†]HealthSaver is a voluntary complementary product available from Momentum. You can choose to make use of additional products available from Momentum, part of Momentum Metropolitan Life Limited, to seamlessly enhance your medical aid. Momentum is not a medical scheme and is a separate entity to Momentum Medical Scheme. These complementary products are not medical scheme benefits. You can be a member of Momentum Medical Scheme without taking any of the complementary products that Momentum offers.

Major Medical Benefit

This benefit provides cover for hospitalisation and certain specialised procedures/treatment. There is no overall annual limit on hospitalisation. Claims are paid up to 100% of the Momentum Medical Scheme Rate. Under the hospitalisation benefit, hospital accounts and related costs incurred in hospital (from admission to discharge) are covered – provided that treatment has been authorised. Specialised procedures/treatment do not necessarily require admission to hospital and are included in the Major Medical Benefit – provided that the treatment is clinically appropriate and has been authorised.

If authorisation is not obtained, a 30% co-payment will apply on all accounts related to the event and the Scheme would be responsible for 70% of the negotiated tariff, provided authorisation would have been granted according to the rules of the Scheme. In the case of an emergency, you or someone in your family or a friend may obtain authorisation within 72 hours of admission. Some procedures are only covered in day facilities, such as cataract surgery and some sinus procedures – see list on page 7.

Chronic Benefit

The Chronic Benefit covers certain life-threatening conditions that need ongoing treatment. On the Evolve Option, chronic benefits are available from State facilities only. Chronic cover is provided for 26 conditions according to the Chronic Disease List, which forms part of the Prescribed Minimum Benefits. Chronic benefits are subject to registration and approval by the Scheme.

Day-to-day Benefit

If you would like to add cover for day-to-day healthcare expenses, such as GP visits and prescribed medicine, you can make use of Momentum's HealthSaver account.

Health Platform Benefit

Health Platform Benefits are paid by the Scheme up to a maximum Rand amount per benefit, provided you notify us before using the benefit. This unique benefit encourages health awareness, enhances the quality of life and gives peace of mind through:

- preventative care and early detection
- maternity programme
- management of certain diseases
- health education and advice; and
- local emergency evacuation and international emergency cover.

Benefit schedule

Major Medical Benefit

General rule applicable to the Major Medical Benefit: You need to phone for authorisation before making use of your Major Medical Benefits. For some conditions, like cancer, you will need to register on a health management programme. Momentum Medical Scheme will pay benefits in line with the Scheme Rules and the clinical protocols that the Scheme has established for the treatment of each condition. The sub-limits specified below apply per year. Should you not join in January, your sub-limits will be adjusted pro-rata (this means it will be adjusted in line with the number of months left in the year)
